

**Chest Wall Pain Syndrome – Table 3 Multiple Conditions:**

Cardiac	Acute Myocardial Infarction
	Angina Pectoris
	Aortic Regurgitation
	Mitral Valve Prolapse
	Hypertrophic Cardiomyopathy
	Pericarditis
	Sickle Cell Crisis
	Thoracic Aortic Dissection/non-dissecting Aneurysm

Pulmonary	Tracheal Bronchitis
	Bronchiectasis
	Pulmonary Embolism
	Pneumonia
	Pneumothorax
	Pleurisy
	Lung Abscess
	Atelectasis
	Carcinoma
	Diaphragmatitis
	Precordial Catch Syndrome
	Hedblom Syndrome

Gastrointestinal	Esophagitis
	Gastroesophageal Reflux
	Sphincter of Oddi Dysfunction
	Esophageal Laceration/Rupture
	Carcinoma
	Paraesophageal Hiatal Hernia
	Esophageal Motility Disorders

Neurological	Intramedullary/Extramedullary Lesion
	Epidural Spinal Cord Compression
	Herpes Zoster/Postherpetic Neuralgia
	Nerve Compression/Radiculopathy
	Neurogenic Tumors
	Complex Regional Pain Syndrome
	Intercostal Neuralgia

Bone	Fractures
	Neoplasm (Primary or Metastatic)
	Arthritis
	Ankylosing Spondylitis
	Costochondritis
	Costovertebral Arthritis
	Diffuse Idiopathic Skeletal Hypostosis
	Inflammatory Diseases
	Tietze Syndrome
	Slipped Rib Syndrome

Muscle	Myofascial Pain Syndromes
	Muscle Spasms
	Contractures
	Dermatomyositis
	Polymyositis

Skin	Burns
	Postoperative pain
	Mastodynia
	Post-Mastectomy Syndrome
	Post-thoracotomy Syndrome
	Scleroderma
	Psoriatic Arthritis
Mondor Disease (an uncommon disorder characterized by superficial thrombophlebitis of the thoracoabdominal wall.	

Psychiatric	Conversion Reaction
	Anxiety
	Depression
	Hypochondriasis
	Operant Learning

Extrathoracic Disorders	Posterolateral disk protrusion C7-8
	Osteoarthritis
	Thoracic Outlet Syndrome
	Pancoast Syndrome
	Gas Entrapment Syndrome
	Peptic Ulcer Disease
	Perforated Ulcer
	Biliary Colic
	Cholecystitis
	Pancreatitis
	Post-Radiotherapy Chest Pain
	Subphrenic Abscess
